## TO WHOM IT MAY CONCERN

This document is to certify that Dr. **Versavia-Maria Ancusa**, Professor at Polytechnic University of Timișoara, Romania, has provided the BRAIN journal with the evaluation of articles included in Volume 8, in the academic year of 2016-2017.

The professional review provided by them helped us ensure the high-quality standards of the articles we publish, as each and every one of them needs to go through a double blind peer-review process.

Sincerely,

Bogdan Pătruț, PhD
